BARRY MANILOW HAS ANOTHER NEW FACE!

Hmm...
What Has
He Done?

THEN
AÛ NATUREL, 1986

NOW
BARRY MANNEQUIN, 2006

FACE & NECK-LIFT?

NYC plastic surgeon **Dr. George Lefkovits** thinks Manilow has had yet another face-lift as well as a neck-lift to reduce his jowls. The procedure, which combined costs about \$25,000, involves snipping saggy skin from the cheeks and chin. **Dr. Lefkovits** also thinks he may have had liposuction on his cheeks. "He now has a nice jawline and a thinner face." Did he get his money's worth? "It's good work, but he could have used some Botox for the crow's feet around his eyes!"

UNDER EYE JOB?

Beverly Hills plastic surgeon **Dr. Wallace Goodstein** is almost positive he's had eyelid surgery. "The eyes look more alert and open and the creases around the eyes and lower lid are much smoother than they were."

Barry Manilow, 59, the Vegas crooner with a legion of swooning fans, has reportedly had not one, not two, but *four* face-lifts! And it appears he's recently gone under the knife again! *Star* asked plastic surgeons **Dr. George Lefkovits** and **Dr. Wallace Goodstein**, who have not treated the singer, for their expert opinions on Manilow's most recent update. — **KELLY WILL & JENNIFER PEARSON** ★

Eternally youthful Manilow performed at NYC's Lincoln Center on Jan. 24.
